

› Product Guide – Carriers & Racks

2018

› Bring your life

Whether it's exploring spectacular nature in the great outdoors or travelling the world with family and friends, we all have a passion for enjoying an active life.

At Thule, we share your desire to spend more time enjoying our passions – which means less time worrying about how to bring all the stuff we need. For 75 years, we have been totally focused on developing smart, stylish products that are environmentally sound, high quality, safe, and easy to use.

Wherever your passion takes you, whatever you're bringing. With Thule products, you're free to live your active life to the full.

› Carriers & Racks

Bring your life. On the road. Enjoying an active life with friends and family can take a lot of gear – especially if you're into biking, skiing, surfing, kayaking, camping, touring, or other outdoor activities. Getting the most out of your active life means that you might need extra space or special carriers to bring everything you need. That's where we at Thule come in.

Roof Racks

It all starts with a Thule roof rack. Get the perfect carrier feet and roof bars then add options.

Bike Racks

With a car bike rack, take your bikes anywhere you want – quickly, easily, and safely. Let us help you find the ideal one.

Boxes & Baskets

A Thule cargo carrier is great when you need the extra space. Choose the rooftop cargo box, basket, bag, or rear cargo carrier that is right for you.

Water Sport Racks

Thule water sport racks give you secure and easy transportation of your kayak or board. Choose the perfect sport rack for your passion.

Winter Sport Racks

Thule winter sport racks give you secure and easy transportation of your skis or snowboard. Choose the perfect sport rack for your passion.

› Roof Racks

It all starts with a Thule roof rack. Get the perfect carrier feet and roof bars then add options.

› The fastest way out there

The number of family members, like the number of outdoor activities, tend to increase with time – and space in the car is reduced accordingly. One way to make room for more adventure is to load things on your car roof.

Start by choosing a rack that suits your needs. A Thule roof rack is the strong foundation for every load, and you can easily mount accessories for different purposes. Just a few simple operations and you're on your way.

Identify your car model and year

Identify your roof type

Thule Rapid System 751, 7511

For cars with pre-installed fixation points.

Thule Rapid Railing 757

For cars with normal sized roof railings (Ø 22-55 mm).

Thule Rapid System 775

For cars with wide railings (Ø 20-68 mm).

Thule Rain Gutter 951

Roof rack feet for cars with rain gutters and raised roofs.

Complete/All-in-one racks Thule WingBar Edge

High performance with a sleek fit

Thule WingBar Edge has a low profile that perfectly complements the car's roofline. The advanced aerodynamic shape combined with TrailEdge and WindDiffuser minimizes noise and improves fuel efficiency. Thanks to its sleek and streamlined design, Thule WingBar Edge is also the ideal solution for keeping the rack on the car even when it's not in use.

Easy to install and use

Thule WingBar Edge safely carries loads up to 75 kg and has integrated T-track, that enables a quick and easy fixation of accessories. It is available in two styles to fit raised rails or fixed points and flush rails, both pre-assembled for fast and easy installation.

Racks/Load bars

- 96X Aluminium
- 96XB Black

Thule WingBar

The most silent and safe load bar.

FEATURES

- Using aerospace design to minimize sound and fuel consumption
- Smoothly arched for a slim fit
- Excellent aerodynamic properties, drag force is reduced with 55% vs. predecessors Thule AeroBar
- WindDiffuser diverts the air currents
- TrailEdge for reduced air resistance
- Equipped with T-tracks – an ingenious feature with great benefits. Load accessories are easily slid in place into the track. The full length of the load bar can be used, making more space for attaching several accessories
- City Crash approved for 100 kg according to ISO Norm

Thule SlideBar

The unique, premium load bar with bi-directional sliding functionality, for easiest possible loading.

FEATURES

- Bi-directional sliding (60 cm in each direction), for easiest loading of bulky load on car roof
- One-hand release functionality with rubberized grip-panels for most ergonomic user interface
- Maxium user security through snap-lock functionality and colour indications for open and closed position
- City Crash approved for 100 kg according to ISO Norm

- 89X Aluminium

Racks/Load bars

Thule SquareBar

Classic steel square bars with black, polymer coating.

FEATURES

- Available in 5 lengths from 108-150 cm

- 712X Black

Thule ProBar

The heavy-duty load bar with a unique tri-slot design for fitting of multiple accessories.

FEATURES

- The tri-slot design gives great flexibility and opens up the possibility of combining a range of different load accessories that can be used independently of each other or in combination
- In the top track, you can for example fit the Thule Load Stop, Thule Ladder Tilt, Thule Ladder Holder etc. You mount the accessories in just a few seconds. Just slide it in and lock in place
- In the rear track you can easily alter between Thule Roller, Thule Foldable Load Stop and Thule Eye bolt. Or let them be mounted together! This gives you the top of the Thule ProBar free for your load
- Tested and approved to take a hefty 50 kg load on each bar, meaning a total of 200 kg if you have four bars mounted

- 39X Aluminium

Complete/All-in-one racks

Thule SmartRack

A complete packed universal railing rack.

FEATURES

- An easy to use roof rack with all components included in the package
- Complete pack, including 4 feet and 2 bars
- The rubber lining protects the surface of the railing from scratching
- Lockable with the help of a special tool, included in the package

- 794 Aluminium
- 795 Aluminium

- 784 Black
- 785 Black

Roof Racks Accessories

Thule Strap Organiser

Gets your strap in order in no time. A sturdy strap is included in the product (274 cm, 400 cm).

Thule Straps

Sturdy straps for safe transport (275 cm, 400 cm, 600 cm). (Single or set of 2)

Thule One-Key System

Replace all lock cylinders on your Thule products and use the same key for all.

Professional

Thule ProBar

The heavy-duty load bar with a unique tri-slot design for fitting of multiple accessories.

FEATURES

- The tri-slot design gives great flexibility and opens up the possibility of combining a range of different load accessories that can be used independently of each other or in combination
- In the top track, you can for example fit the Thule Load Stop, Thule Ladder Tilt, Thule Ladder Holder etc. You mount the accessories in just a few seconds. Just slide it in and lock in place

Roof-mounted Bike Racks Thule UpRide

Thule UpRide

Maximum frame protection and universal fit

Thule UpRide ticks all the right boxes for bike riders who want to take great care of their bikes but quickly and easily too: It offers great protection for your bike frame, will hold virtually all types of bikes, and is foolproof to load and secure. All without having to remove your bike's front wheel.

Thule UpRide is designed to securely hold your bike by grabbing the front wheel only, while a ratcheting wheel strap secures the back wheel to the tray. With no parts of the bike rack making contact with your frame, Thule UpRide is ideal for bikes with carbon frames or other sensitive frames, mountain bikes, and more. The versatile design also means that you can bring virtually any styles and sizes of bike regardless of frame design, brake system, suspension, or wheel size. Thule UpRide can accommodate bikes from 20" to 29", with wheelbases up to 1240 mm and tires up to 3" (or even up to 5", by adding a separate adapter), and weighing up to 20 kg.

Load your bike in seconds

Mounting Thule UpRide on your car is quick, easy, and secure, on either side of your car roof. Since all loading operations are made close to rooftop level, the bike rack is convenient to use on any vehicle for bikers of all heights. To secure against theft, the bike rack can be locked to the car, and the bike can be locked to the bike rack with an integrated cable lock.

Roof-mounted Bike Racks Thule UpRide

Universal upright bike rack with no frame contact, for fast and secure mounting and maximum frame protection.

Roof-mounted Bike Racks Thule ProRide

reddot award 2016
winner

Iconic bike rack

With its combination of convenience, stability, and smart design, it's no wonder Thule ProRide has become the number one choice for bike riders across the globe. You simply won't find a better or more secure way to transport your bike.

Convenient and smart

Ease of use and reliability in every detail are key. From the easy mounting of the bike rack – on either side of the car roof – to the automatic positioning when you load your bike. Thule ProRide carries most types of bike up to 20 kg and with a specific accessory, it's even possible to transport fatbikes. With Thule ProRide, you quickly load and unload your bike – and off you go on the bike trail.

Secure and stable

Loading and securing is effortless because Thule ProRide offers immediate stability when you place your bike onto the bike rack. The brand new torque limiter dial also ensures that the bike is secured correctly by controlling the force that goes into the bike frame. Frame-friendly, soft claw pads adapt to the bike frame and spread the pressure, minimizing the risk of frame damage and incorrect mounting. The claw's extended lower jaw clasps the frame, preventing the bike from falling during mounting as well as adding security during transport.

Add to your Thule ProRide

Thule ProRide Fatbike Adapter
5981 - Upgrade kit for carrying fatbikes on the Thule ProRide 598 bike rack (wheel size 3–5”).

Thule Carbon Frame Protector
984 - An adapter to enable safe transport of bikes with carbon frames.

Roof-mounted Bike Racks Thule ProRide

Upright bike rack for the quickest, most convenient mounting – for bikes up to 20 kg.

598 Aluminium
598B Black

Roof-mounted Bike Racks Thule ThruRide

Smart, simple, and secure thru-axel bike rack

Thule ThruRide fork-mount bike rack makes loading your thru-axle bike easy and secure, without the need for any extra adapters. Loading is simple from the start, allowing you to mount the front thru-axle on the ground before lifting and loading the bike on the bike rack. Once you've placed the axle in the wide-jaw clamp, you adjust the precision dial to fine-tune the grip before closing the throw-hood. This ensures a firm and secure grip on your bike without the risk of damage to the fork. The rear-wheel cradle can be slid along the length of the rack to accommodate different bike lengths. The wheel is held securely in place thanks to a ratcheting strap with padding to protect the wheel rim.

Versatile

With an ever-expanding range of bikes with thru-axles, the Thule ThruRide is a safe bet for anyone who wants to transport their thru-axle bike on the car roof. This versatile bike rack fits the complete range of thru-axles - any diameter from 12 mm to 20 mm - and also fits 9 mm quick-release hubs together with the included adapter. The sliding rear-wheel cradle adds to the bike rack's versatility, accommodating wheelbases up to 48" and tires up to 3".

Roof-mounted Bike Racks Thule ThruRide

The fork-mount bike rack designed to fit thru-axles without extra adapters.

Add to your Thule ThruRide

Thule ThruRide 9 mm Adapter
5651 - 9 mm quick release locking skewer accessory for Thule ThruRide to make the bike rack lockable to bike.

Towbar-mounted Bike Racks Thule EasyFold XT

It's all in the name

Thule EasyFold XT is everything you'd wish for in a towbar-mounted bike rack. It safely carries your bikes to any destination, but when folded it's no bigger than a normal suitcase and can be conveniently stowed away in your car or at home.

With Thule EasyFold XT, fitting the rack to your car and loading your bikes couldn't be simpler thanks to a range of user-friendly features. The mounting on the towbar requires minimum effort thanks to the innovative coupling, and securing the rack to the car is a breeze. The bikes are easy to load and unload, and with the optional loading ramp it's even easier. Once your bikes are loaded, the boot will still be accessible thanks to the smart tilting mechanism.

For every bike

Available in a 2-bike and a 3-bike version, this durable and high-capacity bike rack can transport all sorts of bikes, from light road bikes to mountain bikes, e-bikes, or even fat bikes. The detachable frame holders can be adjusted individually to fit different types of bikes, and click as soon as the optimal torque is reached, ensuring that sensitive frames are not damaged. Like all Thule bike racks, Thule EasyFold XT has been tested extensively in the Thule Test Center™ as well as in real life to make sure your bikes will be carried safely and securely wherever you want to go.

Towbar-mounted Bike Racks Thule VeloSpace XT

Bring your bike. And a lot more.

With Thule VeloSpace XT, the truly all-round bike rack has become reality. Developed for large and heavy bikes – such as e-bikes, fatbikes, and downhill mountain bikes – it works just as well for city bikes and children's bikes. It can also be combined with a Thule Backspace XT cargo box for extra load carrying including a Thule Chariot multisport trailer. The opportunities are endless, particularly for families with small children.

With different models and adapters to carry from 2 to 4 bikes, you can rest assured that Thule VeloSpace XT will be able to carry your bikes, no matter what kind you want to bring. All thanks to the carrier's high load capacity, extra-large distance between the bikes, and extended aluminum wheel trays together with flexible pump buckles and extra-long wheel straps.

A bike rack for everyone

Thule VeloSpace XT equals ease of use and convenience. Like other towbar-mounted bike racks, Thule VeloSpace XT requires minimal lifting to load and unload, making it the preferred choice for heavier bikes. And it is just as easy to mount and adjust the bike rack on the car; as soon as the rack is placed on the towbar, it stabilizes itself and can be positioned correctly. The bikes can be locked to the bike rack, and the bike rack can be locked to the car. You can always access the trunk of your car by tilting the bike rack, even with your bikes mounted.

Bike Racks

Towbar-mounted Bike Racks Thule VeloCompact

Let's you bring the whole crew

The robust yet lightweight Thule VeloCompact bike rack safely carries up to four bikes. It will be the ideal choice whether you want to transport road bikes or mountain bikes, or both. If you need to carry bikes with wider wheel bases, the extendable wheel holders make it easy to adjust the width. Once Thule VeloCompact is mounted and with bikes loaded, you still have access to your car's boot thanks to the smart foot pedal tilt.

Easy to use

This compact everyday bike rack is a pleasure to mount and to load, and when folded it's small enough to fit in the boot of most cars. Loading your bikes is easy and convenient thanks to the detachable bike arms. Thule VeloCompact 3(4) bike rack is equipped with the next generation towbar coupling, making it easier than ever to mount the bike rack on the car. Just place the bike rack on the towbar and the self-stabilizing mechanism allow you to release the bike rack and adjust it before finally securing it with the tightening handle. To carry four bikes, simply use the 4th bike adapter (optional accessory). Thule VeloCompact 2 bike rack is easily lifted onto the towbar and locked into place.

Rear Door-mounted Bike Racks Thule RaceWay

Simple, stable, and secure

Thule RaceWay is our easiest to use rear door-mounted bike rack, safely carrying up to three bikes. Available as a two-bike and a three-bike version, it comes fully assembled, is easy to install, and offers a user-friendly and secure fit for virtually any bike. The narrow distance between the arms means that Thule RaceWay can accommodate most types of bikes, even those with smaller frames such as children's bikes. The bikes are supported by shock-absorbing cradles, and thanks to the patented No-Sway cages, any bike-to-bike and bike-to-vehicle contact is prevented. When Thule RaceWay is not in use, it folds flat and compact, with cables rolled-up into the bike rack, and is neatly stored in the boot of the car or at home.

Perfect fit to your car

Regardless of car model, Thule RaceWay is very easy to install. The detailed instructions and the patented FitDial make it easy to get a perfect fit. Simply find the fit number corresponding to the car model in the user manual and adjust accordingly to get the correct angle. Using an innovative locking ratcheting cable system, and not the more commonly used nylon straps, the bike rack is securely fastened to the car. Since cables don't stretch like straps, they are a more stable way of attaching the rack to the vehicle.

Add to your Thule RaceWay

Thule Bike Frame Adapter

982 - Frame adapter for easiest possible fitting of bikes with non-standard frames (e.g. ladies' bikes, BMXs, downhill bikes).

Rear Door-mounted Bike Racks Thule RaceWay

Thule RaceWay is our strongest, most secure and easiest to use rear-mounted bike rack.

Roof Boxes Thule Excellence XT

Bring all your gear safely and in style

Thule Excellence XT is designed to be the ultimate roof box. With exceptional packing volume and the ability to fit up to 7 pairs of skis, it's your ideal travel companion for any winter adventure.

Thanks to its low mounting profile, Thule Excellence XT is integrated with your car and is designed with advanced aerodynamics to optimize airflow. Giving you a smoother drive whether you're on a mountain road or a highway. This feature-rich roof box opens from both sides, secures your gear with a specially designed load net, and has an automatic box light to make loading and unloading easier in the dark.

The test winner

Thule Excellence XT is a rigid test winner, receiving awards from Auto Motor und Sport, Auto Zeitung, and Auto Strassenverkehr, amongst others.

Thule Excellence XT

Roof Boxes Thule Excellence XT

The world's most exclusive roof box.

Designed for having a forwarded position on the car roof, enabling full access to the boot without interference with the roof box

Automatic load fixation: by just closing the box lid, the load will be fixated and secured automatically with the integrated loading net and crash nose

Exclusive design with a unique 2-tone colour combination and advanced aerodynamics with diffuser technology to optimize air flow around box

Pre-installed Thule PowerClick quick-mount system with integrated torque indicator for fast and secure fitting using one hand only

DualSide opening with outside lid handles for convenient mounting, loading and unloading

Central locking system provides maximum safety. The grip-friendly Thule Comfort key can only be removed if all locking points are securely closed

Roof Boxes Thule Dynamic

Sporty, low-profile design

With a sleek, aerodynamic design, Thule Dynamic is smoothly integrated into your car's shape through its low positioning and curved base line. Thule Dynamic is available in two sizes, with a maximum load capacity of 75 kg, and two exclusive glossy colors.

Smart and safe

Thule Dynamic is designed for easy handling and safety. Thule innovations such as PowerClick make it easier and safer to mount the box to the roof rack, while the DualSide opening lets you load and unload easily. The non-slip base mat prevents luggage from sliding inside the box, further enhancing safety during transit.

Roof Boxes Thule Dynamic

The most sporty, aerodynamic and sleek roof box.

Full access to your car's boot without interference as the roof box is designed for a forward position on the car roof

Roof Boxes Thule Motion XT

Bring it all with ease

When you want to travel fully equipped and leave nothing behind, Thule Motion XT is the perfect companion. This family-sized cargo box is made for carrying lots of luggage, outdoor gear, and bulky loads, and comes in a broad range of sizes. No matter the scale of your adventure, there's a Thule Motion XT to match your needs.

The box is securely and rapidly mounted to the roof rack with the PowerClick quick-mount system, updated to also mount to wider roof bars. Its integrated torque indicator clicks when it's properly tightened, and the one-handed operation makes it easy to securely attach the box to the roof rack. DualSide opening provides easy access to all areas of the box, from either side of the vehicle. Thanks to the grip-friendly outer lift handle and optimized lid-lifters, the lid opens and closes smoothly, while the SlideLock system automatically locks the lid in place as soon as the box has been closed.

PowerClick quick-mount system

SlideLock system

Space-efficient yet sleek design

Thule Motion XT is not only designed for space efficiency and ease of use, but also to harmonize with today's car designs. Its stylish and aerodynamic shape has been optimized using advanced computer simulation, reducing the impact on fuel economy and providing a quiet ride. Since it is designed to have a forward position on the vehicle roof, Thule Motion XT enables full access to the vehicle's boot or hatch with minimal risk of contact with the cargo box.

Like all Thule cargo boxes, Thule Motion XT has been tested extensively both in real life and in the Thule Test Center™, a state-of-the-art facility for testing cargo boxes to the extreme. All so that you can be confident Thule Motion XT will carry your load safely and securely wherever your travels lead.

Thule Motion XT

Roof Boxes Thule Motion XT

Stylish and spacious roof-mounted cargo box, optimized for ease of use.

Easy to open and close – safe and smooth lid opening and closing in all conditions due to grip-friendly outer handles and supporting lid-lifters

Optimized design for best space efficiency, aerodynamics, and vehicle fit

Full boot access with minimal risk of contact with the cargo box, thanks to its forward position on the vehicle roof

Easy to mount thanks to the extra wide, pre-installed PowerClick quick-mount system. The integrated torque indicator clicks when it's properly mounted, ensuring fast and secure fitting

DualSide opening with outside lid handles for convenient mounting, loading and unloading

SlideLock system with separate locking and opening functions, automatically locks the lid in place and indicates when the box is closed securely

Roof Boxes Accessories Thule GoPack

Ready to go

Thule GoPack duffel bags are perfect for making the best use of the space in your roof box. Specifically designed to fit inside Thule's roof boxes, these lightweight yet durable bags make it quick and easy to load your roof box. Just pack everything you need in your bags, put them inside your roof box and you're ready to go! When you reach your destination, unloading your gear is just as simple.

Packing and unpacking is a breeze, thanks to the bags' wide mouth opening, and you can always reach smaller items in the external stash pocket. Each Thule GoPack duffel bag also has a dedicated side pocket with room for an ID card (included), allowing you to organize the load and quickly identify each bag.

Durable and practical

A Thule GoPack duffel bag is a useful and flexible piece of luggage that fits in the trunk of your car as well as your roof box. Available separately or in a set of four, the bags are comfortable to carry using the shoulder strap or the padded grip handles, while the side handles let you organize and access the bags once they are in the roof box. And when you're not using them, the Thule GoPack duffel bags neatly fold flat for easy storage.

Rear-mounted Cargo Thule BackSpace XT

Your cargo close at hand

With Thule BackSpace XT, you get lots of loading space with easy access – at the rear of your car! Keep the interior of your car clean and the roof free to carry other loads. Or just spare your back from having to lift onto the car roof. This premium 300L cargo box – a perfect fit for two golf bags or a Thule Chariot multisport trailer, for example – is easily attached to the towbar-mounted Thule VeloSpace XT bike rack, making the box tilttable so that you can access the trunk of your car at any time. By combining the Thule VeloSpace XT bike rack and the Thule BackSpace XT cargo box, you get a convenient, all-round solution for your transportation needs. You can even transport a bike along with your Thule Backspace XT cargo box, by adding the Thule BackSpace XT Bike Arm and the Thule VeloSpace XT Bike Adapter (accessories sold separately).

Durable, lightweight, and easy to store

Thule BackSpace XT is durable and tough enough to protect your load from dirt and water, but is still lightweight and easy to carry. The hard bottom and frame make Thule BackSpace XT robust and stable, but when the box is not in use it can easily be folded and stored, taking up minimal space until you need it again.

Thule BackSpace XT

Rear-mounted Cargo Thule BackSpace XT

Lightweight, durable cargo box that fits onto the rear of the car, keeping all of your gear easily accessible.

Easy trunk access since the box is fitted onto the tilttable Thule VeloSpace XT

Easily fitted straight onto the Thule VeloSpace XT towbar-mounted bike rack – no tools required

Premium cargo box, giving the car 300L of easily accessed, extra loading space. Perfect for two golf bags or a Thule Chariot multisport trailer

Easy to store when not in use thanks to the lightweight and foldable structure

Box sits low to the ground, making it easy to load and unload cargo

Hard box bottom is custom-fitted to Thule VeloSpace XT

Surf Board & SUP Racks

Thule Multipurpose Rack

A smart multipurpose rack for masts, paddles and oars.

FEATURES

- Flexible system for carrying paddles, oars, masts and other long items
- Integrated cable locks to secure accessories
- Equipment protection provided by integrated rubber cushion
- Available in a set of two

855 Black

Water Sport Racks Accessories

Thule WaterSlide

839 - A technical mat that protects your vehicle while loading and unloading your kayak/canoe.

Thule Strap Organiser

Gets your strap in order in no time. A sturdy strap is included in the product (274 cm, 400 cm).

Thule Windsurfing Pads

5603 - For cushioned support of your watersport craft during transport. (Set of 2)

Thule Lockable Strap

841 - The innovative lockable strap prevents theft of your kayak or other equipment you strap on to your roof rack. (Set of 2)

Thule Straps

Sturdy straps for safe transport (275 cm, 400 cm, 600 cm). (Single or set of 2)

Thule QuickDraw

838 - Perfect to use as a bow and stern line. (Set of 2)

Thule SquareBar Adapter

8897 - An around-the-bar adapter for fitting the Thule DockGrip and Thule DockGlide kayak racks on square bars. (Set of 4)

› Winter Sport Racks

Thule winter sport racks give you secure and easy transportation of your skis or snowboard. Choose the perfect sport rack for your passion.

Aline Bock

"Being out in the nature, traveling to different places, meeting other people with the love for being outdoors, gives me energy and is simply a lot of fun. It refills my batteries and makes me smile at the end of the day."

Roof-mounted Ski Racks Line at-a-Glance

Thule SnowPack Extender

Thule SnowPack

Thule SkiClick

Roof-mounted Ski Racks Thule SnowPack Extender

Load your skis with ease

Slide out, load, slide in – and go! Thule SnowPack Extender ski and snowboard rack makes loading and unloading your gear quick, easy, and convenient. It simply slides out towards you so that you don't need to lean across the car roof to load your skis or snowboards. Especially useful for SUVs and other tall vehicles, but truly practical for any car. Thanks to its oversized push buttons, Thule SnowPack Extender is also easy to open and close in all conditions, even when you're wearing gloves.

Thule SnowPack Extender is designed to carry skis and snowboards of all kinds safely and in style. And just like the Thule SnowPack rack, Thule SnowPack Extender has a contemporary, aerodynamic design that will add a sporty feel to your car.

Safe in every way

With Thule SnowPack Extender mounted on your car, you can be confident that your skis and snowboards will get to the slopes safely and securely. The rack has been thoroughly tested, both in the Thule Test Center and in real-world conditions, to meet stringent international safety standards. Ultra-soft rubber arms protect your skis and snowboards, and ensure that no surfaces are scratched, and the rack is fully lockable to prevent theft.

Thule SnowPack Extender

Roof-mounted Ski Racks Thule SnowPack Extender

Aerodynamic slide-out rack for convenient loading and unloading of skis and snowboards.

New

Added roof clearance for skis with tall bindings thanks to raised design

Extendable for easy loading and unloading, without having to stretch over the car roof

Easy to open and close while wearing gloves thanks to oversized push buttons

Lock the skis to the rack, and the rack to the car, with the Thule One-Key system (locks included)

Holds skis and snowboards securely with ultra-soft rubber arms that grip without scratching the surfaces

7325
Aluminium

Roof-mounted Ski Racks

-  7322 Aluminium
-  7324 Aluminium
-  7326 Aluminium
-  7324B Black
-  7326B Black

Thule SnowPack

Sleek, aerodynamic ski rack for all types of skis and snowboards.

- Holds skis and snowboards securely with ultra-soft rubber arms that grip without scratching the surfaces
- Safely carries thicker modern skis and snowboards, and reduces the carrier height when unloaded due to the integrated vertical spring system
- Easy to open and close while wearing gloves, thanks to an oversized push button
- Added roof clearance for skis with tall bindings, thanks to included extension feet that raise the carrier
- Fits directly into the load bars' T-tracks via the integrated, tool-free mounting hardware (square bar mounting kit available as an accessory)

Thule SkiClick

Smart and space-saving cross-country ski transporter.

- For safe, transport of cross-country skis
- Innovative 3-in-one solution, a ski rack with ski strap and wall storage functionality
- Smart, space-saving design
- Minimum wind drag for less fuel consumption
- Safety lock
- Attaches to walls and roof racks with a simple click

-  (Cross-country skis)
-  7291 Black

Winter Sport Racks Accessories

Thule SkiClick Bag

7294 - Protects your bindings. For cross country skis.

Thule SkiClick Full Size Bag

7295 - Carry and protection bag for cross country skis.

Thule SkiClick Wall Fixation

7293 - A storage accessory to Thule SkiClick 7291. (Set of 2)

Thule SquareBar Adapter

8897 - An around-the-bar adapter for fitting the Thule SnowPack and Thule SnowPack Extender ski rack on square bars. (Set of 4)

Thule T-track Adapter

889-6 - An adapter for fitting the Thule SnowPack and Thule SnowPack Extender ski rack directly into the t-track (30x24mm) of some BMW and Renault original load bars.

Thule One-Key System

Replace all lock cylinders on your Thule products and use the same key for all.

➤ All about heart

We at Thule have worked closely to athletes all over the world for as long as we have been around, with long-term partnerships with iconic Swedish skier Ingemar Stenmark and windsurfing pioneer Robby Naish being two of the most famous ones. Eight years ago, we decided to work even closer with a limited number of athletes, who would not only give us great user input to all of our products, but also share our values. One of the first athletes to join our Thule Crew was legendary downhill mountain biker Chris Van Dine.

Chris Van Dine has always had a huge heart for fans and especially for the kids that have followed his wild downhill mountain biking exploits. Since his first trip to Latin America in 2007, he has returned several times to El Salvador, a country that has experienced so many difficulties. During his trips, Chris saw the joy that the chance to ride outdoors or just perform bicycle tricks in the city gave to the children living under less fortunate circumstances.

With support from Thule, Chris Van Dine decided to launch a major initiative in a small town called El Tunco, where he, together with the local community and the children of the town, built a bicycle park next to an orphanage and organized the shipment of hundreds of donated bicycles from the US.

Chris compares the sheer emotional impact of seeing the smiling faces of the kids the first day they got to ride the new track with the thrill of some of his gnarliest downhill thrill-rides.

At Thule we are proud to support Chris Van Dine in his projects to bring the joy of biking to the kids of Latin America. In addition, we have enabled the award-winning Canadian adventure film crew Sherpas Cinema to produce a beautiful movie about the initiative, called "Bikes of El Salvador".

Chris Van Dine, you inspire us!

"If you want to shape minds, shape spaces where those minds can dwell."
Chris Van Dine
